HILLSBOROUGH EARLY CHILDHOOD PROFESSIONAL DEVELOPMENT TRAINING CATALOG

## QUALITY EARLY LEARNING FOR OUR CHILDREN BEGINS WITH A QUALITY EARLY LEARNING WORKFORCE

As your professional interests and the demands of the early childhood field change, it is important to evaluate and expand your skills and knowledge. The investment that you make in your professional development will be most beneficial when you know what you want and need to learn. Each individual's combination of knowledge, skills and experience vary greatly and no single path will work for everyone.

This catalog contains six months worth of workshops and trainings designed to offer in-depth, research-based trainings in key areas for early childhood professionals working with children in various early childhood settings.

Our goal is to help professionals from every arena of early care and education create or enhance a personal professional development plan based on individual interests and needs. The trainings listed within are open to all early care and education professionals in the Tampa Bay region.

### ABOUT THIS CATALOG

The trainings listed in this catalog are sorted by month and delivered by early care professionals from a number of child and family serving agencies in Hillsborough County (see *Our Partners on page 2*). Many of the trainings are offered in Spanish and English and all are designed to fully support your growth and development as a quality early childhood professional.

Simply browse the catalog and select those trainings that best fit your needs. If you need assistance in developing a professional development plan, The Institute for Early Childhood Professionals (IECP) has staff dedicated to helping you set and achieve your goals.

While these are not all of the professional development opportunities available to you as an early care and education professional, we think you will be pleased with the variety of trainings offered.

# THE LEARNING MANAGEMENT SYSTEM

*A Way for You to Plan and Manage Your Professional Development*

## **What is a Learning Management System and What does it mean to Providers?**

Without getting into too much technical jargon, a Learning Management System (LMS) is a web-based application that acts as a framework to handle all aspects of the learning process. IECP's LMS delivers and manages instructional content, helps the IECP and the Coalition identify and assess individual and organizational learning goals, tracks progress toward meeting those goals and collects data that is needed about our courses and learning processes.

What this means for providers is that registration and payment for all IECP trainings and workshops is conducted online. Providers may also access online courses and communities of practice, as well as early care and education resources via the LMS.

## **How to Use the Learning Management System (LMS)**

Everyone wishing to take a workshop or course **MUST** register using the Learning Management System (LMS). Paper registrations are no longer accepted.

Sometimes navigating an online system can be intimidating, so we've made several short video tutorials that will help you learn how to use this wonderful tool! To get started, go to the ELC's YouTube channel at <https://www.youtube.com/user/ELCHillsborough>. Or type the links below directly into your browser.
