Table 3. Hillsborough Infant Toddler Initiative Pilot Enrollments by Billing Groups

*BG1: At-risk child younger than 9 years of age*BG3: Child from a family that includes a parent receiving temporary cash assistance*BG5: A child of a parent who transitions from the work program into employment as described in s. 445.032 who is younger than 13 years of age*BG8: A child younger than 13 years of age from a working family that is economically disadvantaged

*ELCHC Billing Groups show a difference of 2% between BG8 enrollments. The pilot shows 3% more BG1 enrollments are affected by the Hillsborough Infant and Toddler Initiative. Since February, the BG1 enrollments have been on the rise.

Table 4. Hillsborough Infant Toddler Initiative Pilot

*We see an increase in enrollments for both 12< 24 Months and 24< 36 Months. As both age groups increase, we see steadily consistent numbers for infants under 12 months through May.
*This data shows that as children age out of that category, they are moving up to the other age groups and we are replacing the infants as quickly as they are aging up.
