

## QUESTIONS & ANSWERS FOR RFP INCLUSION SUPPORT SERVICES

**Please be advised all questions are keyed as submitted:**

**Question:** I am looking at #2 item C under the detailed scope of work: "List of prior related work."

I am also looking at section VI RFQ Scoring: "List of 5-7 current client reviews = 20%"

I just want to make sure we are providing the correct information. Are you looking for a us to provide a listed history of our prior related work OR are you wanting us to provide actual reviews / testimonials from providers who have received services OR do you want both? What is being given more weight in scoring?

I want to make sure I understand clearly because the proposal item indicates listing prior related work, but the scoring template seems to indicate wanting provider reviews.

**Answer:** Please provide a list of prior related work AND a list of 5-7 current client reviews. We will score the "List of 5-7 current client reviews" attribute with consideration for current client reviews AND prior related work, so that the scoring is a holistic view of prior and current work.
