Our vision is to achieve a thriving community where everyone has what they need to succeed from the moment they are born.

A Message from the CEO

Every child deserves a strong start. This year in Hillsborough County, that start began here for tens of thousands of children.

At the Early Learning Coalition of Hillsborough County (ELCHC), we believe learning begins at birth, and we work to ensure every child has the quality early learning they need during the years that matter most. This past year, I'm pleased to report that we expanded access to early childhood education, strengthened the educator workforce, and helped families build the foundation their children need to carry into school and life.

Together with providers, educators, families, community partners, donors, board members, and our dedicated staff, we reached more than 27,200 children across our programs in fiscal year 2025-26:

- **17,682 children** from families with limited economic resources received financial assistance for child care through our School Readiness program.
- **11,017 children** attended free preschool through Voluntary Prekindergarten (VPK).
- **868 early childhood educators** received support to grow in their profession.
- **More than \$1.88 million in financial support** strengthened quality early learning across our community.

These numbers are more than a tally of services. They represent children learning, families working toward stability, and educators supported through the years that shape a child's future. When a parent can keep a job because care is covered, a family moves closer to stability, and our county gains a stronger workforce, today and for the next generation.

I invite you to explore our 2025-26 annual report on the following pages to learn how the work we're doing together is making a measurable impact.

As we look ahead, we ask you to be part of what comes next. Whether you invest in this work, advocate for it, or partner with us, you can help more children arrive at kindergarten ready to thrive. For every dollar we receive, 97 cents goes directly to supporting children, families, and educators.

Together, we will ensure more children are safe, supported, and successful, strengthening Hillsborough County for everyone who calls this region home. Thank you for being part of this important work.

Dr. Frederick L. Hicks

Chief Executive Officer

Early Learning Coalition of Hillsborough County

Evaluation of Direct Enhancement Services

Comprehensive Consumer Education

Navigating child care can be challenging for families as they consider quality, affordability, location, availability, and their children's unique needs. The Early Learning Coalition of Hillsborough County (ELCHC) helps families navigate these decisions by providing information, resources, and personalized support to identify programs and services that best meet their needs.

ELCHC's Intake, Eligibility, and Referral teams are certified to provide families with unbiased information and guidance as they consider child care options.

Child Care Resource and Referral (CCR&R) is a free service available to all families in Hillsborough County that helps them identify quality early learning programs, understand financial assistance options, and connect with community resources and services when they need additional support, such as food, clothing, housing, employment support, and more.

Consumer Education by the Numbers

90,580

phone calls answered from Hillsborough County families seeking information about School Readiness, VPK, and additional resources for their children

6,937

families served in person, with nearly 94% receiving assistance within 10 minutes of arrival

592

families that received support with online CCR&R submissions

100%

CCR&R calls and online inquiries responded to within 48 hours

During fiscal year 2025-26, ELCHC continued to expand access to our programs through multiple points of access, including in-person, telephone, and online assistance. Staff supported families with program applications, eligibility requirements and determinations, document submissions, account navigation, and other program-related needs.

The ELCHC office remained open during regular business hours for families seeking individualized, in-person assistance, where staff were available to help families navigate online systems, access technology, submit documentation, and ask questions about programs and services. Telephone assistance provided another convenient way for families to receive guidance and support without visiting the office. The CCR&R Intake Form allowed families to submit requests online for child care information, provider listings, and community resources. Together, these options gave families multiple ways to access timely information and personalized assistance.

In addition, elchc.org continued to serve as a central source of information for families and community members online. The website provided access to program eligibility requirements, application instructions, child care search tools, a caregiver packet, community resources, and other early learning information. These resources increased accessibility and allowed families and community members to obtain reliable information and connect with available services at a time that was most convenient for them.

Family Engagement

During fiscal year 2025-26, the Early Learning Coalition of Hillsborough County continued to strengthen family engagement by creating opportunities for parents, caregivers, and children to learn, connect, and grow together. Through community-based events and partnerships, families gained access to early learning resources, developmental information, and interactive experiences that support children's healthy growth and school readiness.

Day of Play

One of our signature family engagement events is **Day of Play, a free family event series held throughout Hillsborough County that promotes the importance of learning through play.** Day of Play events bring together families, community organizations, and early childhood professionals for interactive activities that foster cognitive, social-emotional, and physical development.

Throughout the year, **Day of Play events reached more than 1,000 participants.** Families had the opportunity to connect with our family services team, learn about available community resources, and engage in activities that encourage meaningful parent-child interaction. To reinforce learning beyond the events, children received age-appropriate books and materials to support continued play, exploration, and early literacy development at home.

Through collaboration with community partners, ELCHC increased awareness of the resources and support available to families while highlighting the important role of play in early childhood development. These efforts helped equip families with tools and knowledge to support their children's learning and development, reinforcing the foundation for future success in school and life.

Book Distribution

ELCHC continued to advance early literacy through several initiatives, including partnerships with Reach Out and Read, Bess the Book Bus, community outreach events, and the Summer Boost program. These efforts were designed to increase access to books and encourage reading among young children and their families.

Through these initiatives, ELCHC **distributed more than 20,000 books to children and families** throughout Hillsborough County, fostering a love of reading, supporting early literacy development, and promoting school readiness.

Provider Financial Supports

The Early Learning Coalition of Hillsborough County remains steadfast in our commitment to developing and supporting the early childhood education workforce, not only through robust professional development opportunities but also through meaningful financial compensation. Recognizing that a well-prepared and adequately compensated workforce is critical to delivering high-quality early education, ELCHC has continued to invest in programs designed to reward educational advancement, encourage retention, and support overall professional growth.

During fiscal year 2025-26, we provided more than \$1.88 million in financial stipends and support to early learning educators.

Quality Initiative Stipend for Educators and Providers

Our Quality Initiative Stipend program provides direct financial support to early childhood providers demonstrating excellence across a range of quality indicators. This year, ELCHC distributed a total of **\$835,000** in stipends across 11 distinct award categories, reflecting a comprehensive approach to recognizing and incentivizing quality improvement throughout the local early learning workforce.

Stipends were awarded across several priority areas, including professional development participation; child assessment completion; sustained CLASS (Classroom Assessment Scoring System) quality scores of 6.0 or above for family child care homes, School Readiness providers, and VPK providers; growth on program monitoring scores; learning management system completions; and accreditation through the Business Leadership Institute (BLI) for Early Learning. The single largest investment came through approved special needs rates, which supported 74 providers with \$7,500 stipends each, totaling \$555,000 and underscoring ELCHC's commitment to inclusive care for children with special needs.

In total, more than 500 stipend awards were distributed to providers meeting rigorous quality benchmarks, spanning everything from foundational training milestones to sustained high performance on classroom quality measures.

By tying financial incentives directly to demonstrated quality outcomes, the initiative continues to strengthen the connection between provider investment and measurable improvements in classroom experiences for the children served.

In addition, Educator Achievement bonuses were issued for the successful completion of training and professional development, totaling \$150,470.

Virtual Early Childhood Learning Materials Fair

To support school readiness across Hillsborough County, the Early Learning Coalition of Hillsborough County hosted its Virtual Early Childhood Learning Materials Fair, connecting early childhood classrooms with high-quality, developmentally appropriate learning materials. The initiative combined streamlined vendor partnerships with direct classroom-level distribution, allowing educators to select materials tailored to their classroom needs.

Through partnerships with Lakeshore Learning and Becker's School Supplies, ELCHC invested a combined total of **\$1,046,144** in classroom materials, with \$750,730 allocated through Lakeshore Learning and \$295,414 through Becker's. This investment reached 837 classrooms throughout the county, equipping educators with tools to strengthen learning environments and support children's growth across key developmental domains.

Training & Technical Assistance

During fiscal year 2025-26, the Early Learning Coalition of Hillsborough County delivered extensive professional development to early learning educators across the county to strengthen the early childhood workforce.

Our impact was enhanced through strategic partnerships with WEDU PBS Kids, Hillsborough County Public Schools (HCPS), the Florida Division of Early Learning (DEL), ZooTampa, the Florida Fish and Wildlife Conservation Commission (FWC), and Save the Children.

Through the Institute for Early Childhood Professionals (IECP), learning opportunities were delivered in multiple formats and languages to meet the diverse needs of educators and families, ensuring professional development remained accessible, relevant, and engaging.

This year also marked the launch of the IECP Mobile App, expanding access to professional learning by allowing users to register, pay for, download, and complete training from virtually anywhere, even without an internet connection. The IECP also extended its reach beyond Hillsborough County, serving more than 200 early childhood educators across Florida and further advancing ELCHC's mission to support educator excellence and improve outcomes for young children statewide.

Quality Initiatives for Infant & Toddler Care

Hillsborough Infant & Toddler Initiative (HITI)

The Hillsborough Infant & Toddler Initiative (HITI) supports families' access to quality child care for children under age 3 by increasing enrollment capacity, providing coaching and technical assistance, enhancing classroom environments, encouraging professional development, promoting family engagement, and making families aware of available slots at participating sites.

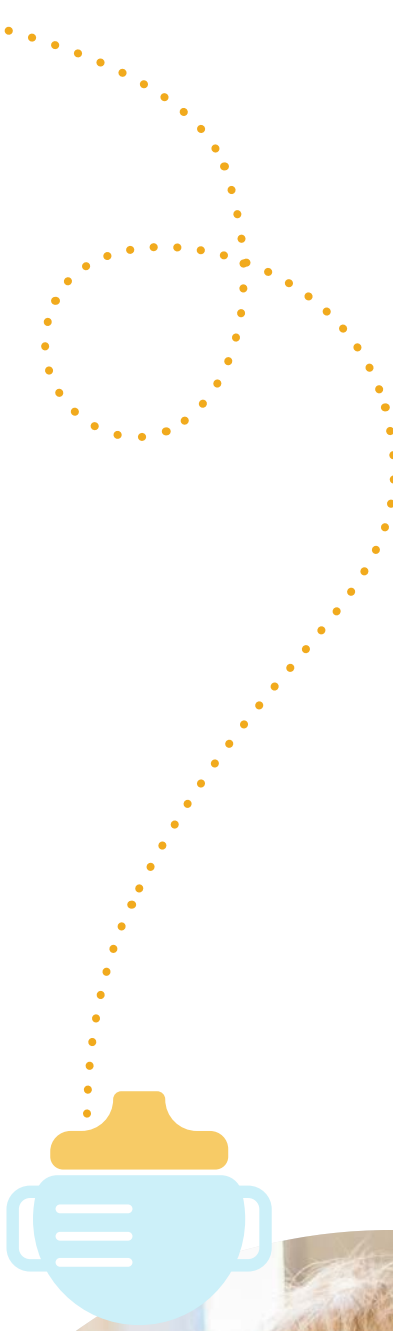

The 2025-26 year began by conducting a HITI orientation on Sept. 3, 2025, with seven early child care programs. These programs consisted of five center-based programs and two family child care homes. During the implementation period, 41 educators joined the initiative, and 10 departed, leaving 31 active participants as of June 30, 2026.

Participating educators received training stipends of \$200 each for every 10 hours of infant-toddler-specific training or \$300 for infant-toddler CLASS group coaching (24 hours). During fiscal year 2025-26, ELCHC provided 417.5 training hours, with stipends totaling \$7,985. We also issued 15 coaching stipends, totaling \$2,250, for participants who completed three coaching sessions lasting at least one hour each. Total stipends for training and coaching for the year were \$10,235.

The enrollment strategies implemented at the early childhood programs resulted in 115 new infant/toddler enrollments across the seven early learning sites from September 2025 through June 2026.

Technology in the classroom was a new component of HITI, launched during the 2025-26 program year. Early education teachers in infant and toddler classrooms were loaned Android tablets to use for the year. Teachers used the tablets to support virtual coaching, access teaching resources, complete online training, and communicate with their assigned coach by email. The programs also received Amazon Echo Dot Kids Owls that they could keep to support classroom instruction, smooth transitions, language development, and music and movement activities. Both devices were offered to the 15 classrooms in the center-based programs and the two family child care homes.

Each participating early childhood program completed pre- and post-assessments using the FSU 10 Components of Quality Care for Infants and Toddlers to evaluate the level of care provided to children under age 3. The tool reviews program standards, policies, and requirements related to the care, education, and support of infants, toddlers, and their families. Programs

were required to select at least one component to guide improvement strategies during the year and could select additional components if they met standards and had time to focus on further improvements. Only structural quality components were offered as options for infant/toddler program improvement. Coaching and Community of Practice sessions were available to directors and owners to support action plans based on pre-assessment results.

Across the seven participating HITI programs, the average pre-assessment score was 53.09, and the average post-assessment score was 77.77, resulting in more than a 24-point increase.

Teacher-child interactions were assessed using Infant CLASS and Toddler CLASS. Classrooms where pre-assessment scores fell below 4.5 or any dimension scored below a 3.0 received coaching to improve the quality of care provided to infants and toddlers. Fifteen classrooms and two family child care homes were assessed, resulting in nine classrooms receiving targeted coaching and professional development support.

The average pre-assessment score was 4.94, and the post-assessment average score was 5.71, resulting in a 0.77-point increase.

The Preschool to Home Library for Infants & Toddlers provides books and storage caddies to children whose parents attend family engagement activities hosted at current and returning HITI programs. During 2025-26, 93 book caddies were issued to newly participating families, and 504 books were provided to add to or create home libraries.

Family engagement is an important component of HITI.

ELCHC offered two sponsored family engagement events to all participating sites: “Putting It All Together:

The Importance of Puzzle Play for Infants &

Toddlers” and “Rattle & Roll,” a Florida Orchestra collaboration piloted at two HITI programs. We

also provided Father’s Day gifts to parents and caregivers at six of the seven sites to support each program’s planned Father’s Day activities. Additionally, all participating sites were required to host at least one family engagement event quarterly.

Quality Initiatives for Children Ages 3 to 5

iSpy Tampa Bay

The iSpy Tampa Bay initiative inspires curiosity and cultivates a love of STEM (science, technology, engineering, and mathematics) by providing preschool educators with the training, resources, and community partnerships needed to create engaging, hands-on learning experiences. Through high-quality professional development, innovative classroom materials, and family engagement opportunities, iSpy Tampa Bay empowers educators to nurture the next generation of problem solvers, critical thinkers, and lifelong learners.

During 2025-26, **24 returning early learning programs participated in the initiative, representing 61 classrooms, 106 educators, and 641 preschool children throughout Hillsborough County.** Returning participants continued to strengthen their STEM instruction while mentoring new educators and building sustainable classroom practices that support inquiry-based learning.

Investing in Educators

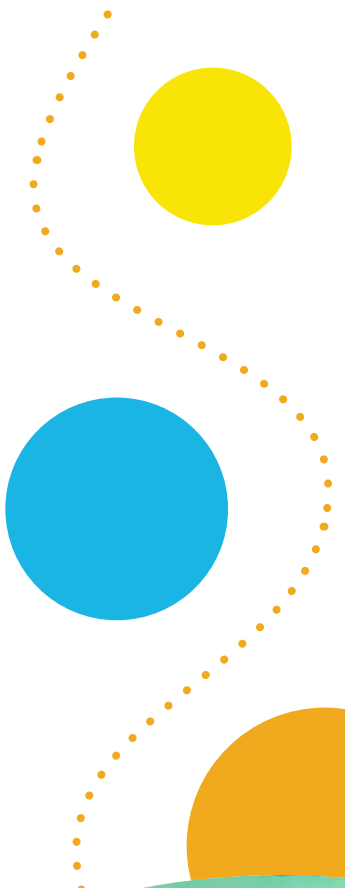

Professional learning remained at the heart of iSpy Tampa Bay. Participating educators completed more than **200 hours of STEM-focused professional development**, strengthening their confidence and ability to integrate STEM into everyday classroom experiences. Through Communities of Practice, educators collaborated with peers, exchanged ideas, and explored innovative ways to foster creativity, problem-solving, and critical thinking in young learners.

To ensure educators had the resources necessary to bring these concepts to life, ELCHC invested more than **\$30,000 in classroom materials**, including STEM exploration tools, science resources, classroom libraries, robotics materials, and exploration backpacks that extend learning beyond the classroom. These resources provide children with meaningful opportunities to investigate, discover, and engage in authentic STEM experiences every day.

Recognizing the dedication required to successfully implement the initiative, ELCHC also awarded more than **\$40,000 in educator stipends**, acknowledging participants' commitment to professional growth, classroom implementation, documentation, and family engagement activities.

Stinger Storm Expansion

One of the most exciting accomplishments this year was the continued expansion of Stinger Storm, iSpy Tampa Bay's early childhood robotics and coding initiative. Building upon the success of the pilot program, additional classrooms received Bee-Bot robotics kits, coding accessories, and instructional resources designed specifically for preschool learners.

Educators participated in specialized training focused on introducing computational thinking through developmentally appropriate, play-based learning experiences. Children explored sequencing, directional language, problem-solving, collaboration, and persistence while programming Bee-Bots to complete challenges and navigate interactive learning activities.

The Stinger Storm expansion demonstrated that coding and robotics can be successfully integrated into early childhood classrooms in meaningful and engaging ways. By introducing foundational computational thinking skills at an early age, the initiative helps prepare children for future learning while reinforcing literacy, mathematics, communication, and social-emotional development.

Creating Lasting Impact

The impact of iSpy Tampa Bay extends far beyond the classroom. Through partnerships with community attractions, engaging professional development, and innovative learning experiences, educators are creating environments where children are encouraged to ask questions, explore ideas, and develop confidence in their abilities.

By investing in educators, expanding access to high-quality STEM resources, and introducing young learners to emerging concepts such as coding and robotics, iSpy Tampa Bay continues to strengthen early childhood education across Hillsborough County. The continued participation of returning programs reflects the initiative's lasting value and its commitment to building a strong foundation for children's future academic success.

Literacy All Year

The Literacy All Year initiative strengthens early literacy by equipping educators, children, and families with the resources, training, and experiences to foster a lifelong love of reading. Through high-quality professional development, classroom literacy materials, home learning resources, and meaningful family engagement opportunities, the program helps build the foundational literacy skills children need to enter kindergarten ready to succeed.

During 2025-26, Literacy All Year **served 24 early learning programs, representing 25 classrooms, 52 educators, and 253 preschool children across Hillsborough County.** The initiative continued to expand its reach while strengthening partnerships between early learning providers, families, and the community.

Investing in Educators

Professional learning remained a cornerstone of Literacy All Year.

Participating educators completed 306 hours of literacy-focused professional development, deepening their understanding of evidence-based instructional practices that promote early language and literacy development.

This year, educators engaged in targeted, practice-based learning experiences designed to strengthen classroom instruction and support early readers at every stage of development. Professional learning included Onset and Rime, helping educators build children's phonological awareness through playful, research-based word work that strengthens early decoding skills.

Educators also participated in Hook 'Em With Books, a dynamic training focused on interactive read-aloud, intentional book selection, and strategies for increasing student engagement and comprehension through high-quality children's literature.

For educators in their first year of teaching, the Kickstart Literacy for First-Year Teachers series provided foundational support in classroom literacy routines, classroom environment setup, and effective instructional practices aligned to early literacy development. This onboarding experience ensured new educators entered the classroom with confidence and practical tools for success.

Additionally, educators participated in three Communities of Practice focused on the science of reading in the early education classroom, where they collaborated with peers to explore evidence-based instructional strategies, reflect on implementation, and strengthen alignment between research and classroom practice.

Literacy All Year by the Numbers

24

early learning

253

preschool children served
across Hillsborough County

To support classroom instruction, **ELCHC invested more than \$37,000 in literacy materials and resources**, ensuring educators had access to engaging books, instructional tools, and hands-on learning materials that inspire children to explore language and literacy every day.

Participating **educators received more than \$27,000 in stipends** for successfully completing professional development, implementing literacy strategies, and participating in program requirements.

Bringing Literacy Home

Literacy All Year recognizes that families are children's first and most important teachers. The initiative continued to provide opportunities that extend literacy learning beyond the classroom and into the home.

This year, **85 children received home literacy resources** designed to encourage daily reading and meaningful family engagement. Families were provided with materials that support shared reading experiences and reinforce the literacy concepts children are learning in their classrooms.

Building Kindergarten Readiness

Literacy All Year continued its focus on preparing children for a successful transition into kindergarten by providing educators with research-based instructional support and children with engaging literacy experiences.

Participating classrooms received a set of Big Books in various titles, a Big Book stand, classroom libraries with the same titles as the Big Books, and a fully set up listening library, helping educators create literacy-rich environments where children can develop oral language, vocabulary, comprehension, phonological awareness, and a love of books through purposeful play and intentional instruction.

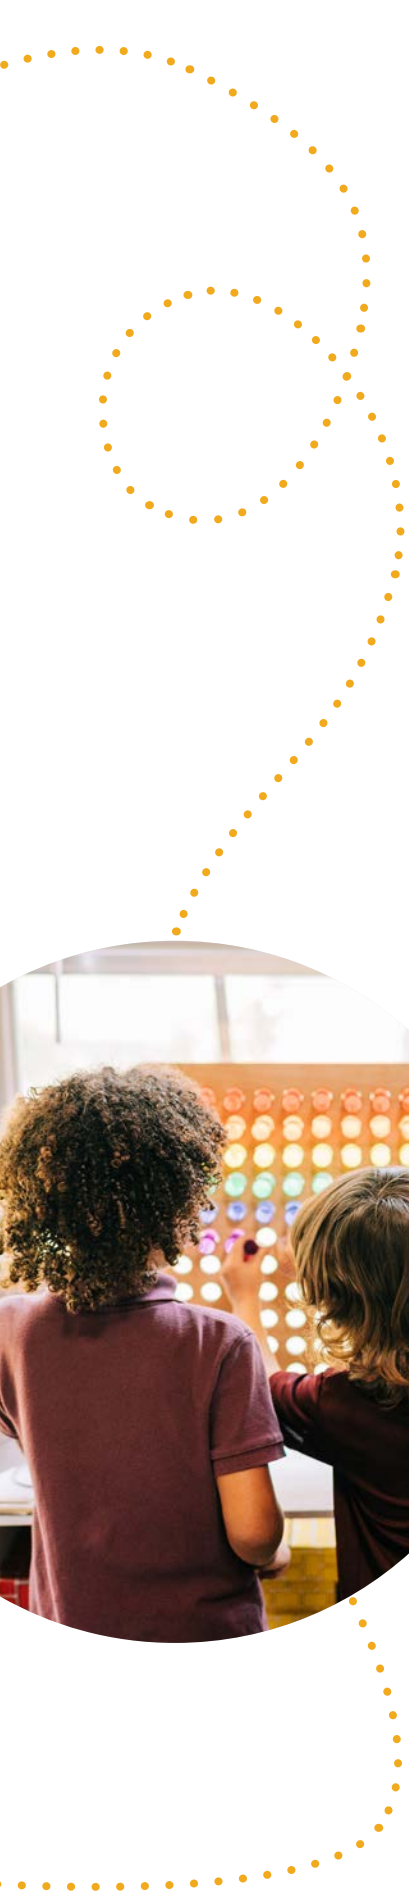

Through partnerships with local schools and community organizations, Literacy All Year also continued to strengthen connections between preschool and elementary education, helping families better understand and support their children's transition to kindergarten.

Creating Lasting Impact

The Literacy All Year initiative continues to demonstrate the power of investing in educators, families, and young learners. By combining high-quality professional development, classroom resources, home literacy supports, and meaningful family engagement opportunities, the program is helping close early literacy gaps while building a strong foundation for lifelong learning.

As the initiative continues to evolve, Literacy All Year remains committed to ensuring every child has access to rich literacy experiences that foster curiosity, confidence, and kindergarten readiness.

A decorative orange dotted line graphic that starts at the top left, curves around the top, and then curves down the left side of the page, framing the text.

Summer Boost

The Summer Boost program is an eight-week extension of the Voluntary Prekindergarten (VPK) school year designed to prevent summer learning loss and support rising kindergarten students in achieving a 707 on the FAST Early Literacy Assessment upon kindergarten entry — the score necessary for children to be deemed “ready for kindergarten.” By strengthening instructional quality and easing the transition into kindergarten, the program helps ensure children begin school prepared for long-term success.

Summer Boost provides targeted, high-quality professional development for early childhood educators, equipping them with research-based instructional strategies, new classroom resources, and ongoing support to enhance teaching practices and improve learning outcomes. The Summer Boost program was implemented from June 8 through July 31, **serving more than 300 children and 50 educators**. Participating teachers received a \$5,000 stipend, while directors received a \$2,500 stipend in recognition of their commitment to the program.

To reinforce learning beyond the classroom, participating families also received a back-to-school backpack filled with essential school supplies, a home library of eight children’s books, and a family literacy kit designed to promote meaningful, engaging, hands-on literacy experiences at home.

Child Assessment

There are three benchmark assessments throughout the year where reports are supplied to compare to eligible School Readiness children within the county. Participants volunteer to take part in the initiative and have several requirements to meet. They must be in good standing with ELCHC, ensure all teachers are reliable in SmartTeach (formerly MyTeachingStrategies), purchase enough subscriptions through SmartTeach for their School Readiness children, and meet three benchmarks a year. Those who met the requirements received a small stipend. Every year, new participants may receive an iPad to assist them in documenting the children in their program. During the program year, the number of participating sites and students was as follows:

- **Benchmark one:** Oct. 31, 2025: 54 programs participated, with 148 teachers conducting assessments, and 410 children assessed.
- **Benchmark two:** Jan. 31, 2026: 54 programs participated, with 148 teachers conducting assessments, and 410 children assessed.
- **Benchmark three:** June 1, 2026: 54 programs participated, with 148 teachers conducting assessments, and 465 children assessed.

ELCHC provided about 30 hours of technical assistance via phone calls, in-person visits, and emails.

Voluntary Prekindergarten (VPK) Coaching Cohorts

During the 2025-26 school year, the Early Learning Coalition of Hillsborough County reimaged its VPK Coaching Cohorts by transitioning the initiative in-house and redesigning it to provide flexible, self-paced professional learning for Hillsborough County VPK providers. Delivered over eight weeks, the cohort featured the Foundations of Literacy VPK Bundle, a series of seven self-paced courses aligned to the key concepts measured by Renaissance Star Early Literacy. The bundle equipped educators with practical, evidence-based instructional strategies to strengthen literacy instruction, deepen understanding of early literacy development, and improve child outcomes.

The initiative **engaged 51 VPK programs and 144 early education teachers, serving 1,516 preschool children across the community.** The results reflect the meaningful impact of targeted professional development:

54%

participating VPK sites that improved their FAST scores from the previous year

70

average gain in FAST scores by participating programs

787

average FAST scaled score by participating programs, significantly exceeding the 707 benchmark for kindergarten readiness

These outcomes demonstrate that investing in educator knowledge and instructional practice translates into measurable gains in children's early literacy development.

The continued success of the VPK Coaching Cohorts reinforces the value of high-quality, data-driven professional learning. Through the Foundations of Literacy VPK Bundle, educators gained the instructional strategies, assessment literacy, and flexible learning opportunities needed to enhance classroom practice and strengthen kindergarten readiness across Hillsborough County. As the needs of VPK providers continue to evolve, ELCHC remains committed to refining and expanding this coaching model, ensuring lasting impact for educators, children, and the community.

Quality Initiatives to Enhance Leadership & the Workforce

Master Class and Accreditation Academy

During fiscal year 2025-26, the Early Learning Coalition of Hillsborough County welcomed its third Master Class cohort consisting of six child care centers, six family child care homes, and three already-accredited providers that participated to strengthen their business and leadership skills.

Master Class sessions were held at ELCHC from January through April 2026 on the third Saturday of each month from 8:30 a.m. to 3:30 p.m., with virtual support sessions offered between classes. For the first time, graduates who completed additional mentor training served as peer mentors, fostering a collaborative community of learners that extends beyond the formal coursework. All participants successfully completed the program, and in June 2026, 12 early learning sites were pursuing advanced accreditation.

Program Outcomes

- **Cohort 1:** Six child care centers and three family child care homes achieved national accreditation.
- **Cohort 2:** Two child care centers have already achieved accreditation, while three centers and six family child care homes are currently awaiting their accreditation validation visits.
- **Cohort 3:** All eligible participants successfully completed the Master Class and have entered the Accreditation Academy.

Recruitment for Cohort 4 is underway, with the next cohort scheduled to begin in January 2027. In response to the needs of our diverse community, ELCHC is also exploring the launch of its first fully Spanish-language cohort to expand access to these leadership and accreditation supports.

Director's Community of Practice

A Community of Practice for early learning program directors brought leaders together monthly with four breaks throughout the year. Participants met at six different early learning program sites throughout the county, providing opportunities to observe a variety of program environments and share best practices. Average meeting attendance was 14 participants, with 50 unique providers participating throughout the year.

During the coming fiscal year, meetings will be held at ELCHC to provide a more centralized location and improve accessibility for participants across the county. Plans also include inviting guest speakers to present on topics of interest identified by the group, further enhancing professional learning and networking opportunities.

Metro Care Corps

ELCHC continued its partnership with the Metropolitan Ministries Care Corps Early Education Internship Initiative during fiscal year 2025-26. Through this collaboration, four Metropolitan Ministries Care Corps internship courses were delivered to 36 participants. In recognition of their achievements, eight interns earned \$300 completion bonuses, and several computers were raffled during cohort graduation ceremonies to support their continued professional growth and success in the early childhood workforce.

United Way Quality Child Care Initiative

ELCHC continued its partnership with United Way Suncoast to provide professional development opportunities for providers located in targeted ALICE (Asset Limited, Income Constrained, Employed households) ZIP codes: 33604, 33610, and 33619.

Seven providers participated in the initiative, selecting from a curated professional development menu that included opportunities ranging from GED preparation and college coursework to conferences, Communities of Practice, and other continuing education activities. The menu was updated throughout the year as new learning opportunities became available.

Teachers' Night Out 2026: Unmasking Excellence

Teachers' Night Out is ELCHC's signature educator appreciation event. This year's masquerade-themed celebration was held on Saturday, May 2, 2026, at the historic Italian Club in Tampa. The event brought together more than 320 guests, including early childhood educators, community partners, and vendors for an evening dedicated to recognizing, connecting, and celebrating early learning professionals.

A highlight of the evening was guest speaker Dr. Lekia Wilson, who delivered a powerful and timely message titled "You Pour So Much Into Others, Let's Refill You: Burnout, Wellness, and Sustainability for Early Childhood Educators." Her remarks resonated deeply with attendees, emphasizing the importance of self-care, resilience, and sustaining passion in a demanding yet impactful profession.

The event featured dinner, music, dancing, entertainment, and opportunities for networking, all designed to uplift and celebrate educators for their continued dedication to children and families. Teachers' Night Out continues to be a highly anticipated annual event, with both the theme and venue changing each year. This intentional variety creates excitement and engagement among educators, making each year's experience unique and memorable.

Monitoring

The Early Learning Coalition of Hillsborough County Provider Support Team conducted on-site monitoring of contracted School Readiness and Voluntary Prekindergarten (VPK) programs to ensure contract compliance. Consequences for noncompliance were determined according to the State of Florida Rule and Law and ELCHC's Progressive Enforcement Procedures.

Staff monitored each provider's program to ensure it met the terms and conditions outlined in the State of Florida Statewide School Readiness Contract (DEL SR-20). ELCHC monitored both private providers and Hillsborough County Public Schools (HCPS).

As part of our ongoing commitment to support providers, the Provider Support Team conducted technical assistance visits throughout the fiscal year. These visits foster collaboration and ensure providers stay informed on current policies and requirements. They also give staff an opportunity to provide constructive feedback that can help providers prepare for future monitoring and health and safety visits.

During fiscal year 2025-26, more than 65% of Hillsborough contracted providers received at least one visit from the Provider Support Team.

Inclusion

Early Intervention Support Services provide essential services to children enrolled in School Readiness. Each year, all children from birth through kindergarten entry are screened for developmental milestones and concerns using the Ages & Stages Questionnaire (ASQ-3) and the Ages & Stages Questionnaire: Social-Emotional (ASQ-SE). Parents may choose to decline participation in the ASQ-SE. The results are reported for follow-up, which may include intervention support plans, additional developmental and behavioral screenings, or referrals for developmental evaluations to Early Steps or Child Find.

To address the growing need for social-emotional behavioral support, ELCHC behavior support specialists developed a program aimed at reducing expulsion rates within the early childhood School Readiness community.

This initiative allows early intervention support staff to create intervention plans that focus on the whole child and all areas of development.

Special Needs Rate

During 2025-26, the Early Intervention Support Services team increased provider awareness and utilization of the special needs rate within the School Readiness program through training and technical assistance on eligibility requirements and the application process.

The special needs rate provides an additional 20% reimbursement above the infant rate to support accommodation for children with special needs, including additional staff, materials, and training. Eligible children include those with an IFSP, IEP, therapy or evaluation reports, or a documented diagnosis.

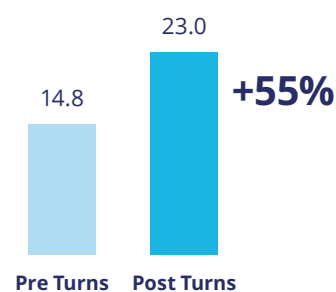

As a result of these efforts, ELCHC **processed 861 special needs rate requests, including 244 new requests and more than 200 redeterminations**, supporting children's continued access to quality early learning environments.

Warm Line Services

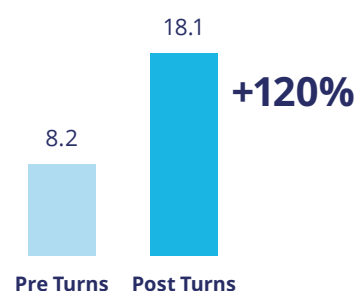

ELCHC provides essential early intervention support and resources to families and providers through the Hillsborough County Warm Line. This service is available to child care centers, family child care homes, and families seeking guidance related to child care arrangements, developmental concerns, inclusion support, and resources for children with special needs.

During 2025-26, the Warm Line supported 254 families and providers by offering individualized guidance, resources, and connections to appropriate services. Through this support, families and providers received timely assistance to help ensure children have access to inclusive and supportive early learning experiences.

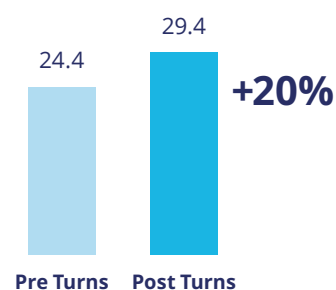

LENA Grow Program by the Numbers

Children who started out experiencing less talk than their peers in the same classroom (in the bottom third) had an average increase of **+8.2 turns per hour**.

Children who started out experiencing less talk than the national median of 15 turns per hour had an average increase of **+9.9 turns per hour**.

Across all children, conversational turns had an average increase of **+5.0 turns per hour**.

Inclusion Support Services Program Expansion

During 2025-26, the Inclusion Support Services project expanded support to 15 early childhood classrooms across two cohorts. Each cohort participated in a six-month support model that included professional development, on-site coaching, classroom enhancements, and family engagement opportunities.

Teachers completed four core training courses focused on inclusive practices, while individualized coaching supported inclusive classroom environments, teacher collaboration, developmental screening practices, and the effective implementation of strategies to support children with special needs. Pre- and post-assessments using the Best Practices in Inclusive Early Childhood Education (BPIECE) tool demonstrated measurable growth in participants' knowledge and application of inclusive practices.

The Community of Access (COA) was established to bring together voluntary community partners and organizations serving children from birth to age 5 with special needs. As a community of partners, COA is committed to increasing access and support for quality early childhood education by helping meet the needs of all children and families.

COA members meet monthly to collaborate, share resources, and strengthen connections among agencies supporting children and families. In summer 2026, COA launched the Fundamentals of Inclusive Practices training series, with strong participation from representatives across supporting organizations, further strengthening shared knowledge and collaboration around inclusive practices.

LENA Grow Program

The LENA Grow program made a significant impact across four child care centers in Hillsborough County from July 2025 through July 2026. The program **engaged 363 children and 57 teachers across 38 classrooms to support early language development** and strengthen teacher-child interactions.

Participating classrooms demonstrated a **20% overall increase** in conversational turns, with children identified as most at risk showing gains of up to 120%. Teachers reported increased confidence in supporting language development, improved communication with families, and greater job satisfaction.

The program received strong participant feedback, with **100% of participating teachers indicating they would recommend LENA Grow to others**. These outcomes highlight the program's effectiveness in strengthening responsive interactions and creating language-rich learning environments for young children.

Data Summary

The neighborhood where a baby is born shouldn't determine how safe, supported, and successful they become. That's why the Early Learning Coalition of Hillsborough County works to ensure all our community's youngest children grow up to achieve anything they can imagine by providing the best possible early learning experiences and supporting the families and teachers who care for them.

Core Programs at a Glance

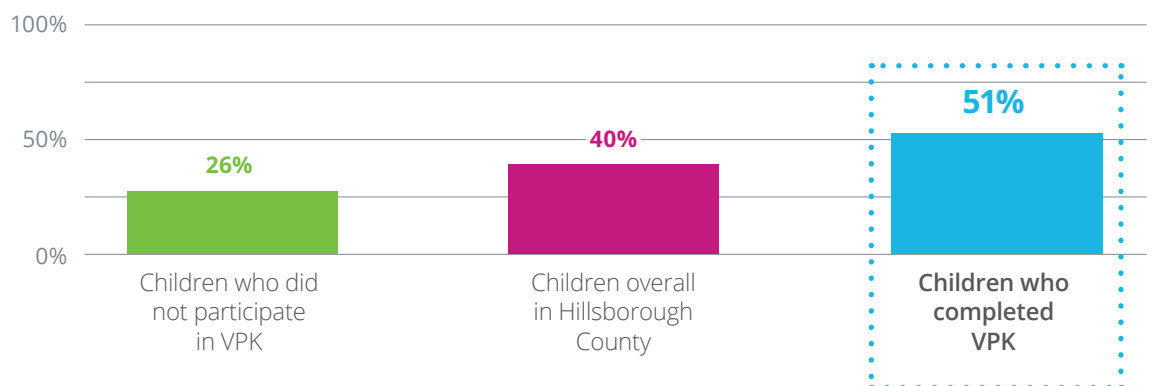

Children Reached

During fiscal year 2025-26, we served more than 27,200 children through our core programs of School Readiness and Voluntary Prekindergarten.

Kindergarten Readiness

During fiscal year 2025-26, children who completed VPK were significantly more ready for kindergarten than those who did not.

Children Served in School Readiness

The number of children served in the School Readiness program by provider type, age, and eligibility priority category, reported as the number of children served during the month and the average participation throughout the month

Child Disenrollment

Total number of children disenrolled during the year and the reasons for disenrollment

Reason for Disenrollment	Number of Children Disenrolled
Child care provider dismisses child due to child's behavior.	24
Child care provider does not meet parent's or guardian's expectations.	9
Child care provider has closed for economic or other business reasons.	74
Child care setting not challenging enough for child.	3
Child care setting provided too much stimulation for child.	2
Child deceased.	5
Child has exceeded the age limit for services.	43
Child is no longer residing with the guardian who completed the initial application. New paperwork must be completed by new guardian.	38
Child poses safety risk to other children at program.	11
Child was determined eligible for services but never enrolled with a child care provider.	26
Client deceased.	5
Client does not show up for redetermination.	7
Client failed to comply with program requirements.	6
Client failed to provide required documentation to maintain eligibility.	4
Client is no longer eligible for services because the family income exceeds the allowable amount for eligibility.	40
Client moved out of the county in which funding is currently provided.	91
Client no longer has a valid purpose for care.	239
Custodian is involved in seasonal work (such as migrant or school district employees) and the child's enrollment is temporarily suspended while custodian is not working.	382
Parent declined Terms and Conditions.	8
Parent or guardian lacks resources necessary to keep child in care.	10
Parent or guardian withdrew child from program.	1,718
Physical limitations of child care provider.	1
Provider dismissed child for noncompliance with the provider's attendance policy.	390
Provider dropped child from the provider's program.	240
Provider no longer receiving School Readiness or VPK funds due to noncompliance or low performance.	51
Provider remains open, but no longer provides School Readiness or VPK services.	48
Referral from referring agency has expired.	178
Referring agency has terminated the referral.	7
Suspected fraud case.	3
The enrollment record was updated.	1,660
The next authorization period was approved.	52
The program where child was receiving services changed ownership. The new owner has a new provider record.	21
Transfer from one School Readiness funding source to another (e.g., BG3 to BG8).	18
Transfer to another provider record (even if the second record is owned by the same provider).	65
Total	5,479

Data is from the EFS Modernization Database as of July 30, 2026.

Detailed Listing of Training Programs Offered

- **Jump Start Your CLASS:** A series of virtual and/or in-person training that promotes high-quality teacher-child interactions. It uses the University of Florida's Lastinger Center's Model for Coaching to support teachers in their classroom environments to improve depth, duration, and frequency of interactions.
- **Hillsborough Infant & Toddler Initiative (HITI):** Provides professional development for teachers who work with infants and toddlers. Educators work with their assigned coaches to focus on specific areas to improve learning environments and teacher-child interactions.
- **CLASS Group Coaching/Interactions Essentials:** A multi-session series designed to help teachers improve depth, duration, and frequency of interactions with children.
- **Literacy All Year:** On-site coaching and technical assistance centered on emergent literacy strategies for teachers of 3- and 4-year-olds in participating programs. Teachers receive coaching on implementing resources and materials provided through the learning events they attend.
- **iSpy Tampa Bay:** On-site coaching and technical assistance centered on helping educators build science, technology, engineering, and math into their curriculum to use in a hands-on approach with children.
- **FSU 10 Components:** Directors and teachers at centers with infants and toddlers may participate in training and coaching. Directors and teachers choose one of the components, and coaches use a pre-component observation as a guide for coaching to increase scores when the post-observation is completed at the end of the first year of this two-year initiative. Materials are provided to support areas that score low on the CLASS tool.

Early Learning Standards

- **Navigating the VPK Performance Metric:** This training aims to provide VPK providers with an understanding of the new evaluation system and how it affects their program status. By the end of this training, providers understand key concepts, the components of the VPK Provider Performance Metric, and can interpret Performance Designations.

- **You, Me and Community: Civics for Early Learners:** Providers will gain access to PBS Kids and Sesame Street resources for engaging young children in basic civics learning, including personal responsibility and what makes a community. The instructor will share ideas for lesson plans and everyday tips for encouraging children to participate in the communities of which they are members.
- **The Language of CLASS®: Pre-K Toolkit:** This session provides knowledge of resources and helpful strategies that align with the Florida Early Learning and Developmental Standards (FELDS), encourages teacher-child interactions, and helps educators identify ways to improve their instructional practices.

Child Screenings

- **ASQ®-3 & ASQ®:SE-2:** Offered in both English and Spanish, the purpose of this training is to equip professionals working with young children and families with the knowledge and skills necessary to effectively administer and interpret the Ages & Stages Questionnaires, Third Edition (ASQ-3) and Ages & Stages Questionnaires: Social-Emotional, Second Edition (ASQ:SE-2). The training provides an overview of Florida's screening requirements for the School Readiness program, along with the intervention process, which includes referral to assigned agencies and community resources. It emphasizes the importance of positive communication with parents when addressing and discussing screening results and promotes communication between parents and teachers. Lastly, participants receive tools and strategies to educate parents about age-appropriate developmental milestones and how to support the child in the process.

Child Assessments

- **SmartTeach: Introduction to Teaching Strategies GOLD®:** Teaching Strategies GOLD is an authentic, ongoing, observation-based assessment system that helps teachers and administrators focus on what matters most for children's success. This training explores the basic GOLD platform, which allows documentation to be added and used to track a child's educational progress.
- **Circle of Security: A Pilot Program for Child Assessment Providers:** The Circle of Security approach equips educators with tools to strengthen teacher-child relationships, increase awareness of children's emotional needs, and build environments that foster secure attachment, exploration, and resilience.

Teacher-Child Interactions

- **CLASS Group Coaching (MMCI) Pre-K:** Provided in both English and Spanish, CLASS Group Coaching (MMCI) helps early childhood professionals engage with the Classroom Assessment Scoring System (CLASS) in order to identify and understand the high-quality interactions that increase children's learning and development. Through in-depth study of the CLASS tool, observation and discussion of exemplary videos, and self-reflection exercises, participants will have opportunities to deepen their knowledge and examine, strengthen, and apply CLASS concepts in their work with children.

Health and Safety

- **Ready, Set, Respond! Emergency Preparedness for Early Childhood Leaders:** Offered in both English and Spanish in partnership with Save the Children, this full-day session focuses on safe planning, collaboration, and preparedness for preschool directors and owners. Participants learn how to develop a fully customized emergency plan, get practical strategies for response and recovery, and gain a better understanding of how to protect their staff, children, and center. Attendees enjoy a day of learning with breakfast and lunch provided and take home a ready-to-use emergency kit for their school.

Nutrition

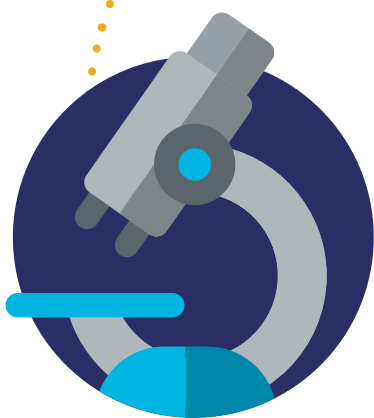

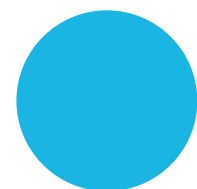

- **Nutrition & STEAM:** Mealtime is more than just an opportunity to nourish children. It can also be a meaningful learning experience. This workshop explores how to intentionally incorporate STEAM concepts into everyday meals and routines. Participants will discover engaging ways to introduce science, technology, engineering, the arts, and mathematics through food, mealtime conversations, and hands-on experiences, turning an everyday routine into an enriching opportunity for learning and discovery.

Social-Emotional Competency: Child Abuse Detection, Prevention, and Reporting

- **Here to Help: Supporting Children and Families in Crises:** This training focuses on traumatic experiences that students may bring to early learning centers and preschools. It uses PBS online resources to identify different traumas that children may experience.

STEM

- **Nature in the Classroom: Seeds in the City:** This training consists of experiential learning through hands-on demonstrations and engagement in the material delivered to early childhood educators on incorporating nature into the classroom environment. The training is based on Cambourne's Conditions of Learning Theory, which states that immersion, demonstration, and engagement are necessary to help learners develop a more meaningful understanding by collaborating to construct meaning and knowledge.

- **Light Lab: Explore, Learn, & Illuminate:** In this training, early learning professionals will learn about how light functions, how to teach students at a preschool level about the light that surrounds them every day, and how to bring the topic to life in their classrooms.
- **Blocks & STEAM:** Offered in English and Spanish, this training improves the inclusion of science concepts during block play to intentionally make construction play an educational moment. In this workshop, participants learn how to use this time and space to develop science, technology, engineering, art, and math (STEAM) concepts to make these experiences enriching.
- **Coding and Robotics in a Preschool Classroom:** Offered in English and Spanish, this training equips prekindergarten educators with the knowledge, tools, and strategies to effectively integrate coding and robotics activities into their classrooms. During this training, participants will delve into the fundamental concepts of coding and robotics and explore developmentally appropriate approaches to teaching these concepts to young children.
- **Growing Up WILD:** Designed for educators of children ages 3 to 7, Growing Up WILD builds on children's sense of wonder about nature through outdoor exploration.
- **Marvelous Magnets:** This magnet training for preschool educators is filled with interactive and age-appropriate activities that make learning about magnets a joyous adventure. Each activity is carefully crafted to capture the imagination of young learners.
- **Wonderful Water:** Water is an essential element of our planet that offers opportunities for exploration. This hands-on program is designed to inspire children by introducing them to the properties of water through interactive activities. It offers early childhood educators innovative strategies to integrate STEM principles into the classroom, thereby fostering curiosity and critical thinking. Children will learn about the water cycle and buoyancy, gaining a deeper understanding of how water shapes our world, while also developing scientific, problem-solving, and creative expression skills.

Language and Literacy

- **Hook 'Em With Books:** This learning event is designed for new and veteran preschool teachers. Participants will learn how to create a literacy-rich environment that prepares preschoolers for kindergarten. They will also have an opportunity to create developmentally appropriate literacy activities and materials and will receive a copy of the National Association for the Education of Young Children (NAEYC) resource on learning about language and literacy.

- **Onset-Hook 'Em LAY Series for Hillsborough County Public Schools:** This learning event is designed for all preschool teachers, both new to the field and veterans. Participants will have opportunities to explore and create literacy-rich classroom activities that will help prepare preschoolers for kindergarten. This six-part series will present many age-appropriate, engaging strategies, including activity ideas and materials, that will intentionally develop early literacy skills in children. The six sessions will cover targeted development of phonological and phonemic awareness skills, language skills through intentional conversations, early literacy and reading development through five-day shared reading plans, read-alouds, and exploration of genres and non-traditional texts. Each participant receives a copy of the NAEYC resource Learning About Language & Literacy in Preschool.
- **FAST-TRACK: Coaching for VPK Mastery:** This is a six-week hybrid series using the FAST Early Literacy Assessment to equip preschool educators with data-driven strategies, coaching, and support for targeted instruction.
- **Literacy All Year Community of Practice:** This three-session Community of Practice for Literacy All Year will support early childhood educators in strengthening emergent literacy instruction, with a focus on whole group, small group, and centers instruction using individual literacy screener pre-data to improve individual literacy screener post-data. Each Community of Practice will focus on internal instructional methods and provide materials and tools to support and facilitate in classrooms. Participants will learn to introduce vocabulary intentionally, design data-driven small groups, support diverse learners, and create engaging literacy-rich centers — all while reflecting on and refining their practice throughout the year.
- **Onset, Rime, and Alphabet Time:** This learning event is designed to discuss the many hands-on methods for teaching emergent literacy skills, including writing in the preschool years, as well as the differences between phonological awareness and phonics skills.
- **Foundations of Literacy: Alphabetic Principle:** This self-paced course equips preschool teachers with foundational knowledge and practical strategies to introduce young children to the Alphabetic Principle. Participants will explore key early literacy skills — alphabetic knowledge, alphabetic sequence, and letter sounds — through interactive lessons and developmentally appropriate classroom activities.
- **Foundations of Literacy: Comprehension Strategies & Constructing Meaning:** Preschool educators will learn how to unlock young learners' understanding with Comprehension Strategies & Constructing Meaning. This course shows how to use read-alouds, rich discussions, and multi-

sensory supports to build vocabulary, background knowledge, and engagement while helping every child make meaning from text before, during, and after reading.

- **Foundations of Literacy: Concept of Word:** This self-paced course helps preschool teachers build children's understanding of print through key concepts like letters, words, word boundaries, and word length. Learn practical strategies to weave print awareness into daily routines, story time, and play-based learning. By the end, participants will be ready to strengthen early literacy skills and set young learners up for reading success.
- **Foundations of Literacy: Phonics:** Unlock the power of phonics instruction in this engaging, self-paced course designed to help early childhood educators turn letters and sounds into confident reading skills. Participants will discover practical, easy-to-apply strategies for teaching letter-sound correspondence, blending, and decoding, and start building strong readers every day.
- **Foundations of Literacy: Phonological and Phonemic Awareness:** This self-paced foundational course guides preschool teachers through the essentials of phonological and phonemic awareness, providing a solid base for early reading skills. Educators will gain practical techniques to help children hear, identify, and play with sounds in spoken language through developmentally appropriate activities.
- **Foundations of Literacy: Structural Analysis:** Participants will discover how structural analysis can strengthen vocabulary and word understanding in their preschool classroom. In this practical course, educators will learn how to teach compound words, introduce and reinforce simple inflectional endings (-s, -ed, -ing), and explore basic prefixes and suffixes through engaging routines, conversations, and read-alouds.
- **Foundations of Literacy: Vocabulary:** Preschool teachers will build the foundation for strong readers by unlocking the power of vocabulary in their classroom. In this engaging course, participants will discover why early word learning matters and walk away with simple, high-impact strategies they can use right away to grow children's language and literacy skills.

Leadership & Business Administration

- **The Art of Leadership Series Book Studies:** “The Art of Leadership: Leading Early Childhood Organizations” offers practical, easy-to-apply guidance designed specifically for the unique challenges directors and owners face each day. This book study provides a structured opportunity for leaders to reflect, grow, and strengthen their skills in a supportive, collaborative environment. By exploring key chapters together, participants will connect the book’s insights to real situations in their programs and identify meaningful steps to improve quality, support staff, and enhance the overall program experience.
- **The Art of Leadership Book Study: Developing People:** This session is designed for directors and owners committed to strengthening their leadership practices by investing in their teams’ growth and success. Participants will explore key concepts from the book, including how to identify staff strengths, support professional growth, and create a culture of continuous development within their programs. Through guided discussion, real-world scenarios, and collaborative activities, attendees will gain practical strategies to coach, mentor, and empower their staff more effectively. This session will also provide an opportunity for peer connection and shared learning, allowing leaders to exchange ideas, reflect on current practices, and leave with actionable steps to implement immediately in their programs.

- **Smart Start: AI for Early Learning Leaders:**

Running a child care program comes with a lot to manage: staff, families, paperwork, communication, and everything in between.

This workshop is designed to make things a little easier. Participants will learn simple ways to use AI to help with everyday tasks to save time and focus on what matters most: their children and team.
